Dear Chavrei HaKollel Avodas Levi,

In order to begin Elul Zman with all of our Bochurim of the Yeshiva and the Mechina, we are asking them to fully shelter in place on Campus for the entire Zman. Its purpose is to separate our Talmidim from the rest of the Community in order to avoid the possible introduction and spread of the virus on our Campus.

We fully appreciate the importance of having our Chavrei HaKollel on Campus as well. Since each of you will be coming every morning after breakfast and leaving after Seder, we must do whatever we can to minimize the interaction between the Bochurim and the Chavrei Hakolel.

Those Avreichim who are learning Yevomos will be allowed to learn in the Bais Hamedrash along with their Chaburah.

All others are being asked to learn in the Ezras Nashim. Coffee and lunch will be served in the Ezras Nashim. You should not go into the new Food Service Facility at any time. We prefer that you enter from entrance closest to the office. We will insist that your temperature be tested every morning. We would hope that you make every effort to minimize the shopping you do for your family as much as possible. Should you come in contact with someone who has the virus please do not come to the Yeshiva.

We are Mispalel, that in the zchus of restoring the Limud Hatorah B’rabim of our entire Yeshiva, we will be granted the Siyato Dishmayo to have an Elul Zman of Aliya in preparation for the Yomim Noraim free from any Covid issues.

B’birchas Hatora from Hanholas Hayeshiva
